AMERICAN FOUNDRYMAN

Published by

AMERICAN FOUNDRYMEN'S SOCIETY, INC.

616 S. Michigan Ave. Chicago 5, Ill.

INDEX

Volumes 21 and 22, January - December, 1952

Key to Abbreviations

br — book review
abs — abstract
ed — editorial
st — shop talk
le — letter to editor
rt — round table
mfm — modern foundry methods

	Issue	Page
A		
Abrasives for Blast Cleaning	Aug	39
Advantages and Disadvantages of Light Metal Melting Equipment	Dec	36
Air Pressure, Low, the High Cost of	Oct	67
Alloy Iron Castings, Side Risers on	Jan	35
Aluminum and Bronze Chips, Separating (st)	Dec	66
Aluminum Casting Alloys, Determining Mechanical Properties of (abs)	Feb	89
Aluminum Casting Alloys, Strong, Do Not Require Heat Treating	Dec	60
Aluminum, Pressure Casting	Mar	45
Aluminum Removal from Red Brass (abs)	Apr	200
Aluminum-Silicon Alloys, Improvement of (abs)	June	88
American Foundrymen's Society		
Apprentice Contest, 1952	Jan	43
Apprentice Contest, 1952	Feb	48
Apprentice Contest, 1952	Mar	41
Apprentice Contest, 1952, Judges' Comments on	Nov	60
Apprentice Contest Winners	May	64
Apprentice Contest, 1953, Opens	Oct	66
Board of Directors Annual Meeting	Sept	55
Chapter Officers Conference	July	75
Convention, 1952	Mar	34
Convention, 1952, Exhibits Preview	Apr	181
Convention, 1952, Ladies Committee	Apr	108
Convention, 1952, New Equipment Exhibited	June	34
Convention, 1952, News Story	May	44
Convention, 1952, News Story	June	69
Convention, 1952, Plant Visitations	Apr	116
Convention, 1952, Program	Apr	96
Convention, 1952, Record Overseas Attendance at	July	56
Convention, 1952, Show New Equipment at	July	42
Convention, 1952, Speakers	Apr	95
Convention, 1952, Students Give Impressions of	July	60
Convention, 1953, Chicago Selected for	Sept	50
Convention, 1953, Technical Program to Dominate	Dec	55
Convention, 1953, Tentative Program Released for	Oct	41
Elects New Officers and Directors	May	62
Exhibitors, Partial List of, for 1952 Convention	Mar	36
Foundry Congress and Show, 1952	Feb	30
Foundry Congress and Show, 1952	Apr	84
Gold Medal Awards, 1952	Apr	92
Honorary Life Memberships, 1952	Apr	91
Mid-Year Board Meeting	Jan	38
Names Committees for 1952 Convention	Jan	30
Nominate Officers and Directors	Jan	37
Officers and Directors	Apr	106
American Society for Testing Materials Holds 50th Anniversary Meeting	Sept	100
Ancient Art of Bell Founding Creates Universal Symbol of Joy	Dec	50
Annealing, Effect of, on Removal of Burned-On Sand	May	91
Antimony, Radioactive, Shows Segregation in Pb-Sb Alloys	Nov	59
Apprentices, Deferments for	Aug	35
Are Technical Graduates Getting Adequate Training in College?: Hiram Brown	Sept	56
Art to Science (ed)	Dec	35
B		
Basic Cupola Operation: John P. Holt	Jan	39
Basic Refractory Selection, Guide to	Nov	63
Bell Founding	Dec	50
Bentonite, Properties Affected by Variations in Water	Oct	75
Bibliographies		
Basic Refractories	Nov	102
Fluidity of Metals	Jan	59
Gray Iron Castings	Mar	64
Olivine	Apr	138
Risering Castings	Apr	149

	Issue	Page
Steel Quality Control	Apr	137
Blast Cleaning, Selecting Abrasives for	Aug	39
Blast Penetration, New Tuyeres Improve	Aug	36
Blow Plate, Universal	Feb	39
Bond, Surface Tension, for Sand	Mar	38
Book Reviews		
Art and Science of Founding	Sept	92
1950 Book of ASTM Methods for Chemical Analysis of Metals	Aug	72
Casting of Brass and Bronze	Sept	92
Combustion Handbook	Sept	94
Economics of American Manufacture	Sept	92
Engineers' Illustrated Thesaurus	Sept	94
Foundry Science	Aug	72
Grinding Wheel, The	Sept	92
Health of Ferrous Foundrymen in Illinois	Sept	92
Machinability and Machining of Metals	Sept	92
Metal Cleaning Bibliographical Abstracts	Aug	72
Metals at High Temperatures	Aug	72
Modern Pyrometry	Sept	92
Non-Ferrous Castings	Mar	65
Oxygen Cutting	Aug	72
Phase Transformations in Solids	Aug	72
Plant Layout—Planning and Practice	Mar	65
Practical Engineer Pocketbook	Sept	92
Safety Manual for the Die Casting Industry	Aug	72
Science of Flames and Furnaces	Oct	109
Shrink Table Sheets	Sept	92
Solidification of Castings	Aug	72
Symposium on Non-Ferrous Metal Melting and Casting of Ingots for Working	Aug	72
Technical Reporting	Sept	92
Typical Microstructure of Cast Iron	Sept	92
Welding, Joining, and Cutting of Gray Iron	Aug	72
Welding of Non-Ferrous Metals	Sept	94
Brass and Bronze, Casting of (br)	Sept	92
Brass and Bronze Ingot, Long, Thin	June	53
Brass Foundry Mechanization (mfm)	May	74
Brass, Silicon and Aluminum in (abs)	June	88
Briquetting Borings (mfm)	June	40
Bronze and Aluminum Chips, Separating (st)	Dec	66
Bronze, Gases in (abs)	Aug	71
Bronze, Manganese, Propellors (abs)	Feb	88
Build Little Ideas into Big Ones: Harry W. Dietert (ed)	June	33

C

Camshafts and Crankshafts, Cast (abs)	Nov	93
Casting Design, Gray Iron	May	94
Casting Process Stars on TV	Jan	48
Castings Welded to Plate (abs)	Nov	93
Casting vs. Welding (abs)	Feb	88
Cast Iron		
Cast Iron and Steel Shavings, Melting	Dec	66
Cast Iron, Inoculation of (abs)	July	94
Cast Iron, Thermal Durability of (abs)	June	88
Growth Characteristics (abs)	July	95
Physical and Mechanical Properties of (abs)	June	88
Testing, Present State of German (abs)	Nov	93
Cement-Bonded Molding Sand for Large Castings: C. D. Galloway	May	67
Cement Molding, Preparation of Sands for (abs)	Aug	71
Cement Sand Molding Process (abs)	Nov	93
Centrifugal Casting (abs)	June	89
Centrifugal Casting (abs)	Sept	87
Chapters		
Chicago Melting School	Aug	81
Educational Activities Survey: G. J. Barker	May	106
Install Twelfth AFS Student Chapter at University of Michigan	Feb	35
Install University of Michigan Student Chapter	May	92
Iron Works Restoration Endorsed by Metropolitan Chapter	Oct	90
Mid-South Chapter Makes Debut	Dec	87
Ontario Publishes Film List	Feb	71
A Student Chapter Grows in Brooklyn	Apr	105
Tri-State Becomes 41st Chapter	June	48
Chemical Analysis of Metals, 1950 ASTM Book of (br)	Aug	72
Chemicals Used for Cleaning, Degassing, Desulphurizing (abs)	Mar	88
Chipping and Removing Welds, Standards for	Apr	120
Clay Determination in Sand Containing Combustibles	Mar	59
Cleaning Castings with Caustic Soda (abs)	Nov	93
Cleaning Room Costs, Side Risers Cut	Jan	33
Cleaning Room Layout, Non-Ferrous	Sept	44
Close Tolerance Casting (abs)	June	89
Cobalt 60 in the Foundry: John C. Pennock	Jan	60
Coke Bed Height (st)	June	81
Coke Breeze (st)	May	97
Coke, Compensation for Low Quality (abs)	June	88
Coke, Cupola (abs)	Dec	99
Coke, Reaction with Carbon Dioxide (abs)	Nov	94
College Graduates, Protests (le)	Oct	105
Combined Carbon, Deterioration of, in Graphitic Iron (abs)	Dec	99
Combustion Handbook (br)	Sept	94
Committees		
News of Technical Committees	Feb	71
News of Technical Committees	Sept	105
News of Technical Committees	Oct	98
News of Technical Committees	Nov	109
Technical Correlation Committee Plans 1953 Program	Aug	48
Continuous Casting of Brass (abs)	Mar	88
Control, Evaluate . . . then (ed)	Jan	23
Core Baking, High Frequency (abs)	Oct	106
Corebinders, Synthetic Resin	Feb	51
Coreblowing Machines—What They Can Do for Your Foundry: John A. Mescher	Feb	36
Coremaking, Shell	Dec	42
Core Sand Colored for Identification	July	44
Cores and Molds, Cement-Bonded	May	67
Costs and Quality Controlled Through Wage-Incentive Plan	Dec	58
Cost System	May	78
Crankshafts and Camshafts, Cast (abs)	Nov	93
Crucible Service Life, Effects of Graphite and Bonding Agent on: R. A. Heindl	Sept	40
Cupola		
Basic Operation	Jan	39
Cupola Coke (abs)	Dec	99
Cupola Control with Thermocouples	Dec	46
Cupola Deoxidation Improves Iron Casting Machinability: F. S. Kleeman	Oct	61
Cupola Department, Organizing (abs)	July	94
Cupola Gas, Utilization of (abs)	June	88
Cupola Improvements (abs)	Aug	71
Cupola Lighting Without Smoke	June	49
Cupola Lining, Air-Cooled	July	34
Cupola Lining Applied by Spraying (abs)	Dec	99
Cupola, 3-in.	Nov	50
Hot Blast (le)	Feb	77
Hot Blast (abs)	Oct	106
Hot Blast, Development of (abs)	Feb	87
Hot Blast Theory (abs)	Feb	88
Current Status of Shell Molding: Richard Herold (mfm)	Aug	42
Cutting Tools, Cast (abs)	Dec	99

	Issue	Page

D

Degassing with Lithium (abs)	Aug	71
Dermatitis, Possible, from Resin Binders	Feb	55
Design of Castings (abs)	Dec	99
Design-Production Teamwork Is Key to Steel Foundry Gains: J. O. Felt	Sept	65
Design, Steel Casting	Sept	65
Desulphurizing Pig Iron (abs)	Oct	107
Die Casting Assembly (abs)	Feb	87
Die Casting, Safety Manual (br)	Aug	72
Die Castings (abs)	Mar	88
Die Castings, Copper-Base (abs)	Apr	201
Dust Control and Fans (abs)	Sept	87
Dust Control, Three Ways to Achieve	Dec	53
Dusts, Truth About Disease Caused by	Sept	53

E

Easier, Surer Identification with Colored Core Sands: L. C. Voss and W. W. Lynn	July	44
Economics of American Manufacture (br)	Sept	92
Educational Activities Survey: G. J. Barker	May	106
Effect of Oxidation Rates on Graphitization of Cupola-Melted Malleable: Milton Tilley	Oct	46
Effects of Annealing on the Removal of Burned-On Sand: Donald Alverson	May	91
Electric Furnace in the Iron Foundry (abs)	Nov	91
Employee Attitude on Safety Controls Accident Rate	Dec	56
Engineering Graduates, Backs Stand on (le)	Dec	84
Engineering Graduates, A Foundry Industry Trend (le)	Dec	82
Engineering Graduates, Likes (le)	Dec	84
Engineering Graduates, Management Explains (le)	Dec	80
Engineering Graduates Needed for the Future (le)	Dec	82
Engineering Graduates, Part of Foundry Life (le)	Dec	84
Engineering Graduates, Wants Questions Answered About (le)	Dec	80
Engineers' Illustrated Thesaurus (br)	Sept	94
Equipment and Layout for Small Production Foundry (mfm)	Jan	44
Equipment, What's New in	June	34
Equipment, What's New in	July	42
Evaluate . . . then Control: J. B. Caine (ed)	Jan	23
Exhibits Preview	Apr	181

F

Ferromanganese Additions	Dec	66
Finding the Most Profitable Snagging Wheel for the Job: P. E. Kiefer	July	32
Flame Hardening (st)	May	97
Fluidity Research, Questions (le)	June	82
Fluidity Variables	Jan	53
Fluoroscopic Inspection of Light Metal Castings (abs)	June	88
Fool-Proof Sand Works for Wide Range of Castings: J. S. Schumacher	June	54
Forgings, Cored, Challenge Castings (abs)	Aug	71
Founding, Art and Science of (br)	Sept	92
Foundry Bard Rams Up, Pours Poems	Aug	91
Foundry Educational Foundation Election	May	66
Foundry Equipment Manufacturers' Association Foresees Business at 1952 Level	Nov	83
Foundry Faces the Future (mfm)	Oct	36
Foundry Layout		
Cleaning Room, Non-Ferrous	Sept	44
Gray Iron Production	Oct	36
Production Foundry, Small	Jan	44
Steel Foundry, Small	Sept	37
Foundry Science (br)	Aug	72
Foundry Training in Vocational School Starts to Pay Off: T.T. Lloyd	June	78
French Foundry Technical Association Annual Meeting	Aug	64
Furnaces, Science of Flames and (br)	Oct	109
Furnaces, Unusual, Old and New	Nov	50

G

Gases in Bronze (abs)	Aug	71
Gate Inserts Supply Heat in Steel Foundry (abs)	July	94
Gating Gray Iron for Production Foundries: James J. Silk	Feb	41
German Founders' 42nd General Meeting	Jan	64
Germany Foundrymen's Association Meets for 43rd Annual Convention	Nov	84
Graphite Applications in Foundry (abs)	Feb	88
Graphitic Iron, Determination of Combined Carbon in (abs)	Dec	99
Graphitization of Malleable	Oct	46
Graphitizing Tendency, Shop Test for (abs)	June	89
Gray Iron		
Castings Redesigned for	May	94
Correlation Between Analysis and Certain Properties (abs)	Oct	107
Cupola Deoxidation Improves Machinability of	Oct	61
Fluidity Variables—Effect of Composition and Pouring Temperature: Lew F. Porter and P. C. Rosenthal	Jan	53
Gating for Production	Feb	41
Gray Iron Production Foundry Faces Future (mfm)	Oct	36
Gray Iron, Welding, Cutting, and Joining of (br)	Aug	72
Process and Product Advantages	Mar	60
Redesigning Non-Cast Parts for	Dec	67
Volume Sensitivity of (abs)	Oct	106
Gray Iron Founders' Society Studies Quality Control, Labor Relations	Nov	78
Gray Iron Research Institute Expands Scope of Operations	Oct	66
Grinding Wheel, The (br)	Sept	92

H

Hardening, Induction, of Malleable Iron (abs)	Aug	71
Health of Ferrous Foundrymen in Illinois (br)	Sept	92
Heat, Radiant, Blocked (abs)	Apr	200
High-Temperature Cement (st)	June	81
Hot Tears Influenced by Hot Strengths at Falling Temperatures	Nov	47
Hot Tears in Steel, Causes of (rt)	Sept	59
How Good Layout Improves Non-Ferrous Cleaning Operations: Martin G. Dietl	Sept	44
How the 1-to-10 Ram Test Measures Sand and Mold Properties: Clyde A. Sanders and Arthur G. Clem	Oct	48
How Thermocouples in the Stack Control Cupola Melting	Dec	46
How to Select Abrasives for Blast Cleaning Metals: V. F. Stine	Aug	39
How Variations in Water Affect Properties of Bentonite	Oct	75

I

Industrial Hygiene Engineer: S. C. Rothmann	Aug	56
Institute of British Foundrymen Hold Annual Meeting	July	59
International Award of Honor	Apr	105
International Congress, 1953, AFS Tours Announced	July	46
International Foundry Congress, 1952	Jan	30
International Foundry Congress, 1952	Feb.	30

	Issue	Page
International Foundry Congress, 1952	Mar	34
International Foundry Congress, 1952	Apr	84
International Foundry Congress, 1952, Hosts	Apr	110
International Foundry Congress, 1952, News Story	May	44
International Foundry Congress, 1952, News Story	June	69
International Foundry Congress, 1952, Program	Apr	96
International Foundry Congress, 1952, Record Overseas Attendance at	July	56
International Foundry Congress, 1952, Students Give Impressions of	July	60
International Foundry Congress, 1953, AFS Tours	Sept	71
Expand Tour Plans for	Dec	49
International Nickel Open House	Oct	83
International Study Tour Hosts	Apr	117
Investment Casting, Experiences with (abs)	Sept	87
Investment Casting Quality (abs)	Aug	71
Investment Castings Cleaned in Caustic Soda (abs)	Nov	93
Investment Molds (abs)	Feb	88

J

Job Record Card for the Jobbing Foundry: R. W. Griswold	Sept	34

L

Ladle Additions of Ferromanganese (st)	Dec	66
Ladle Bearings	May	95
Ladles, Sand-Lined, Oven for Drying	May	82
Layout and Equipment for Small Production Foundry	Jan	44
Lighting the Standard Cupola Without Causing Smoke: C. F. Semrau	June	49
Light Metal Castings, Fluoroscopic Inspection of (abs)	June	88
Light Metal Castings, Semi-Automatic X-Ray of	Aug	62
Light Metal Melting Equipment, Advantages and Disadvantages	Dec	36
Linseed Oil Specifications (st)	Dec	100

M

Machinability and Machining of Metals (br)	Sept	92
Machinability, Cupola Deoxidation Improves	Oct	61
Machinability of Gray Iron, How Structure Influences (abs)	Sept	87
Machining Tolerances (st)	May	139
Magnesite Mold Wash: S. G. Urane	Mar	49
Magnesium Castings for Aircraft	July	94
Magnesium Melting Furnace (abs)	Oct	107
Making a Separate Oven for Drying Sand-Lined Ladles: C. C. Spencer	May	82
Making a Synthetic Pig Iron: F. C. Barbour	July	54
Malleable Founders' Society Holds Annual Meeting	July	55
Malleable Iron		
Better Control of, with New Tuyeres	Aug	36
Graphitization of	Oct	46
Induction Hardening of (abs)	Aug	71
Melting and Annealing, Oxygen in	July	35
Management's Responsibility in Training: J. D. Judge	July	47
Mechanization, Low Cost, Boosts Production (mfm)	Feb	57
Mechanization of Brass Foundry (mfm)	May	74
Mechanization of Small Foundry, Basic Considerations in	Nov	50
Melting Borings and Turnings in Cupola (abs)	Sept	87
Melting Costs (abs)	June	89
Melting Equipment, Light Metal	Dec	36
Melting Operations, Non-Ferrous Ventilation of	Apr	125
Metal-Backed Sand Molds for Medium-Sized Castings (abs)	June	88
Metal Cleaning Bibliographical Abstracts (br)	Aug	72
Metallographic Study vs. Chemical Analysis (st)	June	81
Metallurgy of Shell Molding: B. N. Ames, S. B. Donner, and N. A. Kahn	Jan	21
Metals at High Temperatures (br)	Aug	72
Metal Structure Study, New Technique for (abs)	Oct	106
Microstructure of Cast Iron (br)	Sept	92
Molding Cinder Pots	Oct	53
Molding Machines, Jolt-Rockover	Nov	36
Molds and Cores, Cement-Bonded	May	67
Molds, Copper, Saved by Welding	Mar	44
Mold Wash, Magnesite	Mar	49
Mold Wash Works with All Common Casting Alloys: R. E. Morey and C. G. Ackerlind	Jan	67

N

National Castings Council	Apr	112
National Castings Council Election	May	66
National Foundry Association Studies Management Problems	Oct	60
New Tuyeres Improve Blast Penetration: Lewis Koch	Aug	36
Nodular Graphite Formation (abs)	June	88
Nodular Iron		
Nodule Formation (le)	Feb.	77
Nodules and Nuclei (le)	May	108
Properties and Applications of (abs)	Dec	99
Report on (abs)	June	88
Research in (abs)	Dec	99
Spheroidal Graphite Iron Featured at International Nickel Open House	Oct	83
Status of (abs)	Aug	71
Theory of Globular Graphite Formation (abs)	June	88
Nodules and Nuclei in Nodular Iron: J. E. Rehder		
Part I	Feb	44
Part II	May	87
Noise in Industry (abs)	Nov	93
Non-Ferrous Alloys, Casting (abs)	Feb	87
Non-Ferrous Casting Quality Assured by Radiography (abs)	July	95
Non-Ferrous Castings (br)	Mar	65
Non-Ferrous Castings Degassed with Lithium (abs)	Aug	71
Non-Ferrous Cleaning Room Layout	Sept	44
Non-Ferrous Founders' Society Election	May	66
Non-Ferrous Foundry Melts, Contamination of (abs)	Apr	200
Non-Ferrous Melting and Pouring, Ventilation of	Apr	125
Non-Ferrous Metal Melting and Casting of Ingots for Working (br)	Aug	72
Non-Ferrous Metals, Welding of (br)	Sept	94
Now, There's an Idea!		
Air-Cooled Cupola Lining	July	34
Ladle Bearings	May	95

	Issue	Page
Plastic Pouring Basin and Riser Locator Patterns Contain Permanent Magnets	Nov	68
Shield for Testing Machine	Aug	60
Wedges Automatically Ejected from Saw	Dec	66

O

Sand

Cement, for Steel (abs)	Oct	107

	Issue	Page
Hot Strength at Falling Temperatures and Hot Tears	Nov	47
Inclusions in Steel Castings (rt)	Nov	39
Sand, Burned-on, Removal of	May	91
Sand, Core, Collapsibility (abs)	Apr	200
Sand Distribution System, Ohio State Installs	Jan	32
Sand Fineness (st)	May	97
Sand, Fool-Proof, for Wide Range of Castings	June	54
Sand for Steel Castings (abs)	Oct	107
Sand Handling System, Purdue University Foundry Built Around	Oct	79
Sand Properties Measured by 1-to-10 Ram Test	Oct	48
Sands for Cement Molding (abs)	Aug	71
Sand, Surface Tension Bond for	Mar	38
Sand, Synthetic (abs)	Feb	89
Sand Testing Equipment, Standardization and Maintenance of	Aug	53
Sand Testing Error (le)	June	82
Synthetic Molding, for Iron and Steel (abs)	Oct	106
Testing for Clay in Presence of Combustibles	Mar	59
Save by Briquetting Borings (mfm)	June	40
Science, Art to (ed)	Dec	35
Scrap Salvage, Spot Tests for	Feb	69
Scrap Too High (st)	Dec	100
Segregation in Pb-Sb Alloys Shown with Radioactive Sb	Nov	59
Semi-Automatic X-Ray Equipment: David Goodman	Aug	62
Shavings, Melting Cast Iron and Steel (st)	Dec	66
Shell Molding		
Shell Molding Adopted by Jobbing Foundry (abs)	Apr	201
Shell Molding and Coremaking Adapted to Small Shop	Dec	42
Shell Molding, Appraisal of (abs)	Sept	87
Shell Molding, Current Status of (mfm)	Aug	42
Shell Molding, Discussion of (abs)	Nov	94
Fog Lifting (ed)	July	31

Silica Sand Classification (st)	Dec	100
Silicosis, Truth About	Sept	53
Simple Steps Lead to Successful Foundry Safety Program	Oct	42
Slag, Determination of Sulphur In (abs)	Nov	93
Small Foundry, Small Castings (mfm)	Sept	37
Snagging Wheel, Finding the Most Profitable	July	32
Soil Pipe, Continuous Tar Dip System for (abs)	Feb	89
Solidification of Castings (br)	Aug	72
Some Aspects of the Charpy Test Applied to Steel Castings: J. E. Black	Mar	56
Standardize, Maintain Sand Testing Equipment	Aug	53
Standards for Rough Chipping and Removing Welds: Dean Van Order	Apr	120
Steel		
Sand for Casting (abs)	Oct	107
Stainless Steel Melting (st)	May	97
Steel and Cast Iron Shavings, Melting (st)	Dec	66
Steel Casting, Continuous (abs)	Feb	88
Steel Casting Design	Sept	65
Steel Casting Practice Standardized	June	42
Steel Castings, Charpy Test Applied to	Mar	56
Steel Castings, Production of Small (mfm)	Sept	37
Steel Castings, Sand Inclusions in (rt)	Nov	39
Steel, Causes of Hot Tears in (rt)	Sept	59
Steel Jobbing Foundry Quality Control Program	Apr	135
Steel Properties Improved with Rare Earth Elements (abs)	Nov	93
Steel, Stainless, Problem Castings (abs)	Apr	201
Sulphur in Slag, Determination of (abs)	Nov	93
Surface Tension Bonds for Sand: Wm. A. Snyder	Mar	38
Synthetic Resin Corebinders	Feb	51
T		
Technical Correlation Committee Plans 1953 Program	Aug	48
Technical Reporting (br)	Sept	92
Testing Machine, Shield for	Aug	60
Testing, Non-destructive, with Cobalt 60	Jan	60
Testing of Sand, 1-to-10 Ram	Oct	48
Testing, X-ray (abs)	Feb	89
Tests, Spot, Identify Nine Metals	Feb	69
Thermocouples in Cupola	Dec	46
They're Molding Cinder Pots Bigger and Tougher Than Ever	Oct	53
Three Ways to Control Foundry Dust—Isolation . . . Substitution . . . Wetting Agents	Dec	53
Training, Are Technical Graduates Getting Adequate, in College?	Sept	56
Training, Foundry (le)	May	108
Training, Foundry, in Vocational School	June	78
Training, Management's Responsibility in	July	47
Truth About Disease Caused by Foundry Dusts: O. A. Sander	Sept	53
Tuyeres, New, Improve Blast Penetration	Aug	36
V		
Ventilation at Non-Ferrous Melting and Pouring Operations: Herbert J. Weber	Apr	125
Ventilation System Keeps Bearing Foundry in Business	Nov	43
Vermiculite, Foundry Applications of (abs)	June	88
W		
Wage-Incentive Plan Controls Costs and Quality	Dec	58
Water Affects Properties of Bentonite	Oct	75
Welding, Joining, and Cutting of Gray Iron (br)	Aug	72
Welding of Non-Ferrous Metals (br)	Sept	94
Welding Saves Defective Copper Molds	Mar	44
Welds, Standards for Rough Chipping and Removing	Apr	120
Wetting Agents for Dust Control	Dec	53
What's New in Foundry Equipment	June	34
Why Doesn't Somebody Make a Long, Thin Ingot: L. M. Long	June	53
X		
X-Ray Inspection Speeded by Xeroradiography (abs)	July	95
X-ray, Semi-Automatic	Aug	62
Y		
Young Men, How to Encourage, to Enter Foundry Industry	Nov	81
Z		
Zinc Recovery (st)	May	97
